Subject – EEPA commendation

To whom it may concern,

this note is to testify that Europe External Policy Advisors (EEPA) of 115 Rue Stevin, 1000 Brussels, Belgium, successfully completed a research project for the European Alliance Against Malaria (EAAM) in May 2009.

Terms of Reference were submitted to EEPA and the project managers, Malaria Consortium, were very happy with the outcome. EAAM partners were similarly very satisfied and the research was published in the form of a report, *Contributing to Global Action; The European Union and the fight against Malaria*. The report was widely disseminated and well received among peers, policy makers and interested stakeholders and was presented by Malaria Consortium at an EAAM conference in Geneva in June 2009.

Malaria Consortium considers EEPA to be a valuable new research partner and was particularly satisfied with the willingness of the researcher to deal with queries and proposed edits towards the final stages of the project. With multiple partner opinions to deal with, a wide variety of primary sources to consult and a complex political architecture to describe, we believe that EEPA carried out a very professional and balanced piece of work and would thus recommend this institute.

For reference;

Karl Deering
Advocacy Manager
Malaria Consortium
